

## “Field Visit: Shree Guruji Hospital.”

Mahavir Institute of Pharmacy recently arranged a field visit on 07<sup>th</sup> March 2024 to Shree Guruji Hospital in Nashik for D Pharmacy students aiming to broaden their understanding of medical device used in healthcare setting and to grasp the current health care landscape.

During the visit students were introduced to various medical devices utilised in hospital including diagnostic treatment and monitoring of medical condition.

Additionally students were briefed on the contemporary healthcare scenario including emergency technology challenged and advancement in the field.

They gained insights into the evolving healthcare needs of the population.

Overall, it was an enlightening extension that enhanced student’s knowledge and perspective on healthcare practice and technology.
