

## “INNOVISTA 2024- Shaping the future through innovative research”

*Mahavir Institute of Pharmacy Hosts Research Competition for B. Pharma Students on 26<sup>th</sup> April 2024*

Shree Mahavir education society's, Mahavir Institute of Pharmacy once again took strides towards fostering innovation and research excellence in pharmaceutical sciences by hosting Innovista 2024, a prestigious research competition for BPharma students. This annual event served as a platform for budding pharmaceutical scientists to showcase their innovative ideas, research findings, and projects, while also providing them with valuable exposure and networking opportunities within the field.

Innovista 2024 witnessed enthusiastic participation from BPharma students, showcasing their research projects spanning diverse domains within pharmaceutical sciences. The event aimed not only to recognize outstanding research endeavors but also to encourage collaborative learning and exchange of ideas among peers. The competition started with the inaugural program followed by poster presentations and oral presentations.

**Competition Categories:** Innovista 2024 featured multiple categories encompassing various aspects of pharmaceutical sciences, including but not limited to:

1. Pharmaceutical Formulation and Technology
2. Pharmaceutical Chemistry
3. Pharmacology and Toxicology
4. Herbal Medicine and Natural Products
5. Novel herbal cosmetics

**Judging Panel:** A distinguished panel of judges comprising eminent academicians, evaluated the presentations and projects based on criteria such as scientific rigor, innovation, practical relevance, and presentation skills. Their expertise ensured a fair and comprehensive assessment of the participants' work.

### **Highlights:**

1. **Cutting-edge Research Projects:** Participants presented a wide array of research projects, ranging from novel drug discovery endeavors to innovative formulations and clinical studies addressing pertinent healthcare challenges.

2. **Interactive Sessions:** The event featured interactive sessions where participants had the opportunity to discuss their research methodologies, findings, and potential implications with peers and experts.
3. **Competition rounds:** The competition was held in two consecutive rounds, firstly the competition started with the poster presentations and their evaluations followed by the oral presentations for the selected candidates.

**Winners and Recognition:** After meticulous evaluation, winners were felicitated across various categories, acknowledging their exemplary contributions to the field of pharmaceutical sciences. Apart from trophies and certificates, winners received recognition for their achievements, motivating them to continue their pursuit of excellence in research.

**Conclusion:** Innovista 2024 exemplified Mahavir Institute of Pharmacy's commitment to nurturing a culture of innovation and research excellence among BPharma students. By providing a platform for budding researchers to showcase their talent and ideas, the event not only celebrated achievements but also inspired future generations to push the boundaries of pharmaceutical sciences. As the industry continues to evolve, initiatives like Innovista play a pivotal role in shaping the next generation of pharmaceutical scientists and innovators.
