

Report on visit to Pandit Jawaharlal Nehru Botanical garden ,Nashik

Date of Visit: 26 Dec 2024

Organized by: Mahavir Institute Of Pharmacy, Nashik

Participants: D.Pharmacy Students

Introduction

Mahavir Institute of Pharmacy organized a visit to Pandit Jawaharlal Nehru Botanical garden Nashik on 26 December 2024. The visit aimed to provide D. Pharm students with practical learning about plant species and ecosystems also to enhance environmental awareness.

Objectives of the Visit

- To provide practical learning about various plant species and ecosystems.
- To encourage scientific observation and inquiry.
- To enhance environmental awareness among students.

Observations

During the visit, students observed a wide variety of plant species for e.g. Neem (*Azadirachta indica*), Amlaki (*Embllica officinalis*), Arjuna (*Terminalia arjuna*) etc. The garden was well-maintained, with clean pathways and labeled plant species. Students also noticed several water features, including a small pond and a fountains. Students observed and learned to identify different species of plants, understanding their active ingredients and applications in pharmaceutical science.

Conclusion

The visit to the Pandit Jawaharlal Nehru Botanical Garden was a rewarding experience that provided students with a deeper appreciation for the natural world. It was a valuable educational experience for students. The visit provided a unique opportunity for hands-on learning and deeper insight into pharmacognosy, benefiting the students in their academic journey.
